

A Peek at our Week

We had a WONDEFUL time at the pumpkin farm yesterday! Thank goodness the rain held off...it was dry and not muddy☺ We went on a hay ride, saw some animals, walked through a corn maze, picked our own pumpkin and had a snack of cider and popcorn!

There are still a few items that are needed for our Grandparent's celebration and the Halloween Party. Please stop by and sign up if you have not already done so.

Our Smart Board is up and working. We will be incorporating it into our lessons throughout the week.

This week we started our T.K. Reading Series and have reviewed letters A-H so far. Our new sight word is **THE**; please add it to your list of words. We are starting to practice writing our name on lined paper. It is hard for our young 5's to keep in the lines this early in the year, but any practice that you can do at home, will accelerate this process; thanks so much!

In Math we finished up patterning this week. Many of them can identify patterns but have a hard time forming a pattern without assistance. Ask your child about the different kinds

of patterns that we talked about in school (eg. A,B....A,B,B,
A,A,B.....A,B,C) and have them make one for you.

In Religion we are discussing how *God* made the animals; and
our Science lessons this week have been creepy and crawly as
we talk about SPIDERS and INSECTS!

We are also working on learning our phone number....please
practice!

Have a great weekend!
