Four Year Old Class

April 2013

Treasure Hunt

Springtime is here and with it we are closing in on the end of our school year. We continue to learn our upper and lower case alphabet letters.

This month our focus will be on the letters Ll-Longest Laugh, Uu-Unusual Umbrella, Jj- Jingle Jingle Jacket and Xx-Different. Reinforcement of previously learned letters continues. It is exciting to watch the progress and growth that the children have experienced during this school year.

April is "Keep America Beautiful" month. Our class will explore the natural wonders of our country and learn various ways each one of us can help keep America beautiful. Look for our Earth Day class artwork which will be coming home.

Listening comprehension skills keep improving! Barney the Bookworm has grown to an enormous length and the children are hopeful Barney will grow around the room by the end of school.

During this month we will be concentrating on mapping skills, following direction skills and sequencing skills. Our study will culminate in an exciting school wide search for hidden treasure. We will be following sequential clues bringing us closer and closer to our goal. Once the treasure is discovered each child will return to class and create his/her own map to aid future "pirates."

Our religion series focuses on the wonders of nature that God has provided. Weather permitting we'll venture outdoors to get "close to nature."
