

# A Peek at our Week

---

Nov. 1, 2015 Mrs. Gilson

*Thank you to all of the moms who planned a wonderful Halloween Party for us. The children had so much fun and we all appreciate the time and work that you put into it.*

*Conferences are next Thursday. Please sign up for a time if not done so already. If these times are inconvenient for you, please see me and we can work something out.*

Our story this week was Animal Babies in Grasslands and our focal skill was "The Main Idea". We learned three new sight words...LIKE, WE and MY, please add to your list of words. We continue blending short A words...they are really doing great!! Our focal letter this week was P, we practice this sound at the beginning and the end of words.

I introduced "Morning Message" to the students this week. This is another form of literacy that the children LOVE to participate in....ask your child what I keep in my Morning Message Box☺. They love to come to the board and find sight words, letters, rhyming words, etc... We have loads of fun in Kindergarten!

In Math, we are working on numbers 1 to 10. This week, we learned what a "Ten Frame" is, how many more a certain number needs to make 10, and correct formation of 7-10

In Science we continue learning about SPIDERS and in Religion we are discussing the Holy Family. We have been visiting the sisters every other Wednesday, we truly brighten their day☺.
